INSTRUCTIONS:

First layer:

1. Take 15,5mm oval chain and mark one side of it as A-side (you will need this later, when you put the layers together). Attach the other side of the chain to a large round link using one oval jump ring.
2. Cut 13cm of beading wire. String one crimp bead, put the wire through the large round link and back through the crimp bead then crimp.
3. String one photobead, one faceted bead, one photobead and one crimp bead. Put the wire through another large round link, back through the crimp bead and the photobead. Pull the wire very tight and crimp. Cut excess wire.
4. Using a jump ring attach 10cm oval chain to the last round link. Use jump rings to connect different parts of this layer in this order: 1 eye shaped link, 8cm oval chain, 1 round link, 11cm oval chain, 1 eye shaped link and 11cm oval chain.

Second layer:

5. Take 13,5cm oval chain and mark one side of it as A-side. Attach the other side of the chain to a large round link using one oval jump ring. Using jump rings proceed to attach: 1 eye shaped link, 3,5cm oval chain, 1 eye shaped link.
6. Cut 10cm of beading wire. String one crimp bead, put the wire through the last eye shaped link and back through the crimp bead then crimp.
7. String one faceted bead, one photobead, one crimp bead and one jump ring. Put the wire back through the crimp bead and the photobead. Pull tight and crimp. Trim excess wire.
8. Attach 13,5cm oval chain and one eye shaped link.
9. Cut 13cm of beading wire. String one crimp bead, put the wire through the eye shaped link and back through the crimp bead then crimp.
10. String one photobead, one faceted bead, one photobead and one crimp bead. Put the wire through the last large round link, back through the crimp bead and the photobead. Pull the wire very tight and crimp. Cut excess wire.
11. Attach the rest of the oval chain to the last round link.

Assemble and finish off:

12. Put the two marked A-sides together and connect them to the ring of the toggle clasp using one jump ring.
13. Put the other sides of the two layers together and connect them using a jump ring. Attach one more jump ring. Use the last jump ring to attach the bar of the clasp to the necklace.
